

SUPPORTING TODAY, TRANSFORMING THE FUTURE

THERE ARE MANY WAYS TO BE PART OF A STORY

At Maná de Vida, every child has dreams to fulfill and a future to discover. With your support, we can accompany them on that journey and continue building new opportunities.

Would you like to be a part of it?

EVERY FACE HAS A NAME, A
HISTORY, AND DREAMS

KNOW THEIR NAMES LISTEN TO THEIR DREAMS SHARE LIFE

Your long-term support makes it possible for them to continue growing with dignity, hope, and purpose.

OPTION 1

TO ACCOMPANY A LIFE

Accompanying a boy means being present in the different stages of his life: supporting him in his studies, celebrating his achievements and helping him to reach his dreams.

From their early school years to their professional goals, your support can make a difference on their path

Every child has a story, dreams, and a future to build. Accompanying a life means walking alongside them as they build their future.

WHAT IT INCLUDES:

- She accompanies him in his personal life
- Support in their studies
- Pay attention to what you need to move forward
- Continued until I graduate from university.

THEIR FUTURE CAN ALSO BE PART OF YOUR STORY

OPTION 2

TO SUPPORT A PROGRAM

Your support helps us to continue fulfilling our mission every day.

In education: we can work to ensure our children have their uniforms, the necessary resources to study, and the opportunity to learn.

In terms of nutrition: we can help each child have their three meals a day.

Together we can ensure that our programs continue to fulfill their purpose.

OPTION 3

HELP US MAKE A DREAM COME TRUE

At Maná de Vida, we continue to dream of spaces that provide more opportunities for our children. Thanks to the people who support us, these dreams can become a reality. Today, we invite you to be part of the projects that will allow us to continue growing and transforming lives.

Covered Court: We want our children to be able to play, learn, and share in the shade, protected from the sun. This dream has been waiting to become a reality for over two years, and today it is our priority.

Pool changing rooms: A space where our children can change comfortably before and after their swimming lessons.

CECADE Buildings: We dream of having specialized classrooms for each area of training, where more young people and adults can learn, develop their talents and prepare for new opportunities.

Clinics: We want to develop spaces to provide healthcare and strengthen the well-being of our children and the community

THERE'S STILL SO MUCH WE CAN BUILD TOGETHER!
